

Product list

our vision

We become happier and healthier when we spend time outdoors – and life between buildings gives us exactly that opportunity. It should be experienced and enjoyed – together or individually.

Outdoor spaces serve as pause zones, meeting points, and experience areas that inspire stay, community, and activity – regardless of age, interests, or background.

We are a Danish company, shaped by the Scandinavian design tradition. At out-sider, we rethink urban space with designs that combine aesthetics, functionality, and sustainability. We are driven by courage and challenge the ordinary through form, colour, and materials.

out-sider is for those who want to create inspiring urban spaces. We develop urban furniture that enriches, excites, and leaves a positive imprint on the cityscape.

outsider
RETHINK URBAN SPACE

All prices are excluding VAT, ex works from the factory in Denmark, and do not include installation. We reserve the right to make changes and correct any errors or misprints. Please refer to our 'Terms and Conditions of Sale and Delivery' at out-sider.dk/en.

LOOP

LOOP is a modular urban furniture and play system designed to support creative, social interaction. The LOOP family consists of 16 maintenance-free polyethylene modules, available in 9 NEW colors in EcoMix, offering endless possibilities for assembling engaging spatial configurations — inviting users to play, sit, and interact on, beside, and in between the elements.

New for this year – LOOP in EcoMix

The LOOP family is now available in EcoMix – a durable material with a distinctive, stone-like appearance. EcoMix contains 33% recycled post-consumer plastic and consists otherwise of recyclable polyethylene, meaning the material is both recycled and fully recyclable. The textured surface also helps conceal dirt, scratches and signs of wear in the outdoor spaces.

All LOOP products have undergone CO² footprint analysis. The series is TÜV-approved for playground use according to EN 1176 (excluding LOOP Cone).

Designed and produced in Denmark by AART Architects.

#135

LOOP CIRCLE

Design: AART Designers

Loop Circle – a simple and flexible furniture for urban spaces, schools, and playgrounds. Loop Circle is an inclusive piece of furniture suitable for various social and cultural contexts. It invites informal gatherings, relaxation, or movement for 4-6 persons – whether it's inside or around the furniture.

LOOP CONE BACKREST

Design: AART Designers

Loop Cone placed in the center of a Loop Circle acts as a backrest. A plant can be placed in the center of the Cone, or you can choose a table top to cover the 'hole'. Loop Cone works as a self-contained table. Or a Backrest for Loop. Positioned in the middle of a Loop it becomes a backrest as well as a planter.

Price is excl. Loop Circle.

HOPOP 350/500

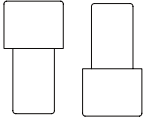

Design: out-sider

HopOp, arranged in clusters with varying heights and colors, creates inviting environments that interact with the space in a playful manner. With its simple appearance, HopOp symbolizes fun and spontaneity, inviting people to sit, rest, play and jump. These activities bring joy and energy to the playground, schoolyard, and urban space. HopOp is an example of how design can inspire play, interaction, and togetherness.

Scan the QR code to find our mounting instructions.

Material: Rotation moulded polyethene, 6mm dyed. Moulded in one piece.
Dimension: Ø350 + Ø500 x H950mm. Buried to a visible height of 300-500mm.
Fixation: The bollard is anchored in concrete.

PLATEAU

PLATEAU represents a modern approach to urban furniture, designed to encourage flexible social interaction. With soft, human-centric forms and a clean Nordic color palette, the Scandinavian design integrates seamlessly into a wide range of architectural environments.

The PLATEAU family is made from a single piece of durable, paper-based HPL (12 mm compact laminate) combined with a hot-dip galvanized steel frame, ensuring exceptional strength and longevity of up to 50 years.

The laminate panels consist of 65% surplus wood from Norwegian sawmills, certified according to FSC® and PEFC standards, making PLATEAU a timeless and sustainable solution for urban spaces.

Designed and produced in Denmark by Holscher Design.

#177

PLATEAU PICNIC O

#326

PLATEAU POINT SUN

Design: Holscher Design

Point Sun is a smart solar-powered light unit designed specifically for the Plateau Picnic tables. This innovative solar light serves both as a guide and atmosphere light, providing illumination without the need for cables or connection to electrical grid.

CIRCUS

CIRCUS is inspired by the circus ring as a shared gathering point, offering a dynamic and circular meeting place for everyone. Through modular forms and varied levels – from low seating to grandstand-like steps – CIRCUS creates space for stay, meet, act & go green.

The flexible system allows elements to be rotated, stacked, and connected into playful, sculptural configurations, easily adapted to schools, parks, plazas, and other public spaces. Made from recycled plastic and durable laminate, CIRCUS supports urban biodiversity through integrated planting, wild vegetation, and insect-friendly elements.

Designed by Thor Høy.

#213 1

CIRCUS SOLO

Design: Thor Høy

Solo is the simple and honest starting point of the Circus family. In its simplicity, Solo creates a quiet space for rest, reflection, and pause – right in the middle of urban life. A rounded, monolithic element that can stand alone or be part of larger configurations.

BRACKETS

#213 2
CIRCUS DUO

Design: Thor Høy

CIRCUS Duo challenges the traditional bench as we know it – often stretched out in a long, straight line. Instead, Duo introduces a soft, organic form, where two seats are connected in a dynamic structure that invites new ways of meeting and spending time in public spaces. A small piece of furniture with a big impact – CIRCUS Duo brings movement, variety, and nature into the urban landscape.

BRACKETS

#213 3 CIRCUS TRIO

Design: Thor Høy

Circus Trio brings new life and movement into urban spaces through circular modules at different heights. The sculptural form breaks away from the flat and linear – creating a playful, flexible structure that serves as seating, a playful island, or a social meeting point. The three levels invite layered interaction – you can sit high or low, stay in the middle of it all, or retreat slightly. The combination of function and form makes Trio a natural gathering spot in everything from schoolyards to plazas and parks.

CIRCUS BASE

Design: Thor Høy

With CIRCUS, you have full freedom to design flexible and functional seating areas in urban spaces. The series consists of three different base modules – Base 1, Base 2, and Base 3. The modules can be combined in countless ways, allowing you to create everything from calm gathering points to dynamic seating zones.

Material: Rotation moulded polyethene.

Dimension: Base I: Ø900mm. Base II: 900mm x 1800mm. Base III: 1800mm x 1800mm.

CIRCUS TOP

Design: Thor Høy

For the Circus base you can choose a top to suit the purpose and atmosphere of the space. Choose between a seat, a planter, or a half seat/half planter for a dynamic and multifunctional design.

Tops are available in four durable HPL colours or a warm mahogany version crafted from FSC®-certified wood – adding either a modern, vibrant look or a natural, inviting feel to your urban space.

OTHERS

Sculptural urban furniture, innovative designs,
and high-quality materials.

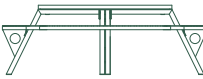

Material: Frame: Hot galvanised steel. Tabletop: Iroko wood + stainless steel.

Dimension: Ø1460/2300mm / H750mm.

Fixation: For surface fixation. Brackets to be ordered separately.

	Roundtable
 Iroko wood	121 0100

#121

ROUNDTABLE

Design: Extremis

A multifunctional picnic table for sitting, eating, and communication. The four seat quadrants are adjustable in height, providing different levels for adults as well as for small and tall kids.

#148

LONGTABLE

Design: Extremis

A reinterpretation of the traditional long table and bench set in fresh form. A seating, dining, and communication table inspired by the long rows of tables and benches used at the traditional harvest festivals and beer festival.

Material: Tabletop and seats: Iroko wood or Hellwood. Frame/legs:

Folded hot galvanised steel + Laquered in white/Earth/Red.

Dimension: 2400mm - 3000mm.

Fixation: Sits directly on the ground or surface fixation. Brackets to be ordred separately.

#129

AMAGER CHAIR

Design: Kirstine Jensen

Featuring a logo on the backrest, the Amager Chair provides an opportunity to create and strengthen the local identity. The Amager Chairs design is light and simple, using bent steel tubing. Heavy enough not to be removed easily by the wind, but light enough to move and arrange in various configurations. The Amager Chair is ideal for public spaces, residential communities, universities, and small green oases.

Material: Frame: 12mm bent steel pipe, stainless steel - Seat / back: 2mm sheet steel A2 stainless steel.
 Available with bead blasting or powder coating.
Dimension: H850 x B610 x D660mm. Seat H440mm.

	With Logo	Without Logo

#173

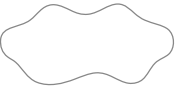

LAVA

Design: Karim Rashid

Lava's appealing design and organic forms exert a magnetic effect on both adults and children. Drawing inspiration from clouds and lava, it establishes an inviting atmosphere in the space, fostering creative expression or providing a moment of respite. Lava has no direction, and its function is not predetermined, thereby encouraging users to engage their imagination and follow their intuition.

Material: Rotation moulded polyethene, dyed. Moulded in one piece.

Dimension: L2600 x W1200 x H500mm.

#152
SATELLITE

Design: Stephan Gustin

Satellite is a creative urban space element designed for the way children and young people inhabit urban environments. Relaxation and movement combined in one piece of furniture. Satellite can be set up in 4 different ways, allowing one to sit within the cavity, practice parkour, or climb the rungs when the satellite is upright.

Material: Rotation moulded polyethene, 10-12mm. Moulded as one big piece.
Dimension: L2980 x W1720 x H2020mm.

#313

JELLO

Design: NATiON + KSA Design

Jello is the urban space element that's hard to pigeonhole – quite literally. This sculptural piece unites a sturdy bollard, resting place, gathering point, and bike rack into one multifunctional unit, adding modern dynamism and flexibility to urban spaces.

#134

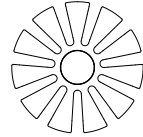

JELLO SUN

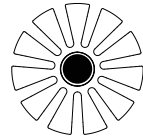

Design: NATiON + KSA Design

Jello is also available with integrated solar technology, providing free lighting without cables or power connection.

We reserve the right to make changes and correct any errors or misprints. Please refer to our 'Terms and Conditions of Sale and Delivery' at out-sider.dk/en.

Material: Body: Moulded white/anthracite wet concrete. Reinforced with stainless steel to strengthen the legs.
Light unit: Top ring made in stainless steel, top cover for solar cell in 6mm tempered glass.
Dimension: ø1165mm x 705mm.

	Jello

#324

OBSTRUCT

Design: NATION

Obstruct concrete plinths frame streets, squares, and temporary events where there is a need to create security without disfiguring the cityscape. An organic concrete plinth with three contiguous islands, non-directional and set up in formations creates smaller spaces or paths between the products.

Material: Molded poured, armoured concrete.

Dimension: L2300 x W1230 x H550mm. Seating height 550mm.

	Obstruct	Obstruct <i>w. point sun (3 units)</i>	Obstruct <i>w. seat</i>
